

**THE NOA ENERGY TEAM HAVE MARKET LEADING EXPERTISE. WITH THE ABILITY TO QUOTE NEW AND EXISTING RISKS, THE TEAM PROVIDES SPECIALIST SOLUTIONS AND EFFECTIVE COVER ON A WORLDWIDE BASIS.**

NOA specialises in the upstream and midstream segments of the energy value chain.

We have a particular appetite for:

- Small and medium enterprises who value consistency and are keen to establish long-term strategic partnerships.
- Organisations with clearly identified risk transfer requirements.
- Premium companies with high quality assets and superior operational performance.
- Companies with a strong track record for ensuring a safe working environment and maintaining social responsibility.

We are able to lead panels of syndicated insurer support, providing bespoke and competitive terms for the following:

- Comprehensive indemnity for physical damage, sue and labour and removal of debris to valued assets.
- Coverage for control of well, redrill and containment expenses encountered with issues arising out of drilling and producing operations.
- Protection for the interruption to production and income streams
- Exposures to third party legal and contractual liabilities.

Advancements in technological capability and increasingly challenging environments require forward thinking underwriters with an open mind and a track record of delivering.

The NOA Energy team combines technical knowledge and experience to provide insightful solutions to the marketplace.

The team has a total of over 50 years' experience working with our clients through an ever-changing market and interacting closely with our claims team.

We offer easy access to decision makers and reliable box presence, thus enabling meaningful lead and follow capability.
